The “**Essentials of Fire Chaplaincy**” is foundational training course for the work of the fire department chaplain. This Two-Day Course is the basis for training recognition by the Federation of Fire Chaplains and earns the student a certificate from the FFC upon completion. U.S. & Canadian Fire Departments are now using FFC Training as the standard for fire chaplaincy allowing chaplains to minister within the fire service wherever life takes them.

The content of the Essentials course was developed by fire chaplains across the country to be practical help for on scene and in-firehouse ministry. Instructors are certified by FFC to teach using an interactive approach which involves students in the classroom process.
