

CISM Training Opportunity

TWO Courses in ONE:

Assisting Individuals in Crisis & Group Crisis Intervention

October 1-3, 2019 0830-1700hrs
Ellensburg, WA

This 3-day course combines ALL of the content of ICISF's Assisting Individuals in Crisis & Group Crisis Intervention courses.

Crisis Intervention is NOT psychotherapy; rather, it is a specialized acute emergency mental health intervention which requires specialized training. As physical first aid is to surgery, crisis intervention is to psychotherapy. Thus, crisis intervention is sometimes called "emotional first aid". Designed to present the core elements of a comprehensive, systematic and multi-component crisis intervention curriculum, this course will prepare participants to understand a wide range of crisis intervention services for both the individual and for groups. Fundamentals of Critical Incident Stress Management (CISM) will be outlined and participants will leave with the knowledge and tools to provide several group crisis interventions, specifically demobilizations, defusings and the Critical Incident Stress Debriefing (CISD). The need for appropriate follow-up services and referrals when necessary will also be discussed.

This course is designed for anyone in the fields of Emergency Services, Fire & Rescue, Law Enforcement, Business & Industry Crisis Intervention, Disaster Response, Education, Employee Assistance, Healthcare, Homeland Security, Mental Health, Spiritual Care, and Traumatic Stress.

These two courses provide the needed foundation for work in Critical Incident Stress Management and Peer Support Programs.
